DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3, 5-6, and 8-18 are allowed over prior art of record. The following is an examiner's statement of reasons for allowance: The combination of Matsumoto and Kiraly et al. discloses that the service provider generates voice synthesis data based on the voice characteristic data of the speaker selected by the customer and loads the obtained voice synthesis data into the device of the customer (*see claim 4 below*). The combination of Matsumoto and Kiraly et al. fails to specifically disclose that the service provider furnishes the customer, together with the list of the speakers, a list of devices into which the voice synthesis data can be loaded; whereby the customer notifies the service provider, via the network, which device was selected from the list. Furthermore, it would have not been obvious to one of ordinary skill in the art at the time of invention to incorporate the method mentioned above to realize the claimed invention. Therefore, claims 1, 3, 5-6, and 8-18 are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
